Introducing the new 150W Monocrystalline Solar Panel - your compact energy solution. With a 12V DC output, it performs remarkably even in low light. Designed with durability and efficiency in mind, the anodized frame and high-transparent tempered glass ensures durability against the elements, while maximising energy capture. Significantly more ...

150w Monocrystalline Solar Panel produces 12v dc. Firstly, this 100w solar panel has high efficiency when tested side by side with a polycrystalline solar panel. This makes It is ideal for both permanent and mobile use. This could be in your workshop, man cave or camper van. It is also good for a full off grid system.
