The "MPP Solar" inverters I"m using are only capable of 60A AC and 80A charging each. Perhaps I"ll try see if 1AWG or 1/0 will fit, if needed. Grounding / Bonding - I need to add that to the PV panels. I have the wire for it, just forgot to add it to the diagram. In regards to power losses, I"m not sure how I could reduce this too much.
