It's the only rectangular 6 volt group 2 battery that I have run across that's specifically specified for 51 through 54 Packards. It's also affordable, made in the states and is a better alternative to the borderline batteries available at Autozone, Tractor Supply and other chain stores. I still plan on hooking up a battery tender though and ...

Composed of (16) UL listed prismatic 3.2V cells in series which have been tested at 7,000 deep discharge cycles to 80% DoD - fully charge and discharge this battery daily for over 15 years without issue.

The 12-volt system has superior compression ratios over the 6-volt, helping start your car when the engine is hot due to increased cranking power. 12-volt systems are also a necessity for many later accessories such as certain radios, air conditioning or halogen headlights, which cannot be run on 6-volt battery systems simply because they don ...

For example, a 12-volt battery with a 650 CCA rating means the battery will provide 650 amps for 30 seconds at 0 °F before the voltage falls to 7.20 volts for a 12v battery. So in freezing temperatures, a higher CCA level is required to ...
