For each battery group size, there are other group sizes with only slight differences in dimensions. For example, a group 58 battery measures 255mm x 183mm x 177mm (L x W x H), while a group 47 battery measures 246mm x 175mm x 190mm. This means a group 47 battery, being only slightly less in length and width, can be used to replace a group 58 ...
