After much looking around I finally settled on a battery replacement from Greentec. Two Chevy dealers told me it would be \$12,000+ for them to do it; it cost \$8,000 at Greentec. There was a \$6,000 option as well, with a lesser warranty. The battery replacement process was smooth enough, and as far as I can tell they did a good job.

Battery Pack Rebuilds. There's no need to let your trusty old cordless tool go when it no longer holds a charge, and a replacement battery is too costly or hard to find. Let a trained ...

Apply a slow charge to a repaired pack to bring all cells to parity. Pay attention when using an unknown cell brand. Elevated temperature hints to an anomaly. Do not charge a Li-ion battery that has physical damage, has ...

In case someone is wondering about a battery pack at zero (0) volts, vice a single cell, here's something I found that worked. A 12v Battery Pack was at 0V and wouldn't take a charge. Manufacturer Miady recommended starting up the sleeping BMS with a 9-volt battery across the terminals. I tried this -- it worked!

They advised that the car required a total main battery replacement, but upon further inquiry, they said that it was one cell that was damaged. Parts cost \$9000.00 plus \$1200 labor for the entire battery, they will not replace only the damaged cell. Any help saving this car is appreciated. Thanks

When your deep-cycle battery nears end-of-life, it's normal to want to squeeze as much out of it as possible before spending money on a new one. Numerous online videos ...
