Facing an issue with your Lenovo ThinkPad laptop where the battery cannot be charged? Learn the possible causes and troubleshooting tips.

Without a properly-charged battery, you won't be able to fire up the engine. Batteries can lose their charge for a number of reasons. The most popular culprit is when you simply drain the battery by leaving the lights, or some other electrical component, turned on. If that happens, you'll need to charge the battery.

I just bought an HP 250 G9 Notebook in August 2023 and the battery is almost no longer charging, it takes 30 minutes to charge to 1%. The battery - 8916330
