I did, thank you. Instead of proprietary battery post compound, I use Fluid Film on the battery posts after cleaning them. Harbor Freight sells a dandy post cleaner for 5 bucks, every day I might add. The Fluid Film is much less expensive and keeps corrosion from degrading battery performance from high resistance oxidation.

Battery ends added

In normal flashlight batteries, like AA, C or D cell, the terminals are located on the ends. On a 9-volt or car battery, however, the terminals are situated next to each other on the top of the unit. If you connect a wire between the two terminals, the electrons will flow from the negative end to the positive end as fast as they can.
