This is going to sound weird but I am looking for ideas on how to fully waterproof a 18650 pack. As in submerge the whole pack in salt water a few times a year and it will be fine. Living in a tropical country I deal with heavy rain several months a year. I found that water is really good at wicking under shrink wrap and will get into everything eventually. I have used lipo up to ...

IP67 waterproof battery pack, rechargeable 12V Lithium ion battery pack is designed specifically to integrate with Light bars, Flexible LED Lights, or any 12V DC electronic device. The Lithium ion battery pack can be recharged without limitations, as the battery is designed for a slow charge process (3 hours for full charge), which helps the ...
