Milwaukee M18 Carry-On Power Supply: This is a different unit to include on this list, but it does meet all the

Battery replaced with rechargeable power supply

requirements, so here we are. Likely interesting mostly for Milwaukee tool platform ...

I have a device with 4 series 1.5V D cells batteries (About 8000maHour). The batteries last 40 hours, making the average draw around 200mA. The problem however is that the duty is about 2% at 1/3Hz, so it seems to deliver bursts of about 10A, and I don't really want to put in a 10A 60W supply for something that is only about 1.2W average. And ...

I didn't see any recent topics on these, so if there is one, please point me there. I have Oticon OPN hearing aids - the original ones (and yes, I TRIED to get Oticon to replace them with the S or whatever when Z-Power went belly up. Oticon wasn't interested). And I've been using the Z-Power rechargeables. My audiologist knew they were going away and got me ...
