The battery cables meet the requirements of SAE J1127 Type SGT as well as UL1426 BC5-W2 making them ABYC and US ...

Wire Size. Wire size is the physical size of the wire as sized by the American Wire Gauge (AWG) system. It's indicated by a number that runs opposite to the diameter of the wire (the smaller the wire gauge number, the larger the wire diameter). The size of the wire dictates how much electrical current can safely pass through the wire.
