A huge battery still uses tiny wires to connect to the engine, so that's a non-issue. The actual point here is whether the Seal can SELF-activate, which is obviously false. If so, once Sakura's "chakra wire" to the battery gets cut off, she can't use the battery. Kisame has Samehada, which IS a separate chakra being (and somewhat sentient).

Techniques for Chakra Alignment. Chakra alignment is a practice that aims to balance the energy centers in our body known as chakras. By harmonizing these chakras, we can enhance our overall well-being and promote physical, emotional, and spiritual healing.

Naruto sighed, "I will attach a chakra battery to the chest armor, each fueled by the ANBU member's own chakra over time. Every one of these seals has a failsafe inside them, meaning they can only be used by the assign ANBU member's unique chakra signature, so in this case, their chakra batteries can only be refilled by themselves."

Chakratec's unique flywheel energy storage technology for EV charging is built with longevity and the environment in mind. It enables unlimited high-power charge and discharge cycles, and is based on a nonchemical flywheel that makes the system intrinsically green as opposed to toxic and polluting chemical batteries that need to be constantly replaced.
