A battery operating watch can stop at any time. Therefore we advice you to replace or check the battery of your watch at least every 1-2 years since battery sometimes create leakage. Replacing a battery in the watch has a few steps: Open watch back case carefully. Check and replace battery. Check quartz, coil, wheels are all running smoothly.

1. Battery restoration or reconditioning is not the same as recharging a battery. Just recharging a battery will restore some of the battery"s charge for a short time whilst reconditioning it will restore it to its full capacity.
2. The most ...
