Democratic Republic of Congo's government said on Wednesday it would push to develop domestic battery manufacturing capacity to add value to its exports of minerals such as cobalt and copper.

Precursor plant location. Stakeholders suggest that this remains a point of disagreement between the DRC and Zambia. The governments initially agreed to construct the precursor plant in a cross-border special economic zone, but it seems that this shared site may be ultimately deemed unviable. The zone will therefore likely sit in one country or ...
