Generally, the battery won't just fail with an end-of-life event--it simply won't hold as much of a charge. That said, manufacturers estimate lifespan in thousands of discharge cycles. It's ...

Dolenz, now 75 years old, has been married three times, and has four children -- all daughters. The oldest, Ami Bluebell Dolenz, is also an actor. According to Riff Magazine, Dolenz and Nesmith (who's now 77) were set to tour together once again when the pandemic hit, forcing them to postpone the series of dates. "You just have to accept it ...

Micky Dolenz, son of actor George Dolenz from the 1956 TV series The Count of Monte Cristo, began acting young. At 10, he starred as Corky in Circus Boy (1956-1958) under the name Micky Braddock. His early roles included appearances in Mr. Novak and Peyton Place. A major career shift occurred in 1966 when Dolenz [...]

OverviewRechargeable configurationsHistoryThermal batteries (non-rechargeable)See alsoExternal linksSince the mid-1960s much development work has been undertaken on rechargeable batteries using sodium (Na) for the negative electrodes. Sodium is attractive because of its high reduction potential of -2.71 volts, low weight, relative abundance, and low cost. In order to construct practical batteries, the sodium must be in liquid form. The melting point of sodium is 98 °C (208 °F). Th...
