

# Easy Solar Panel Installation

Check the orientation, size, pitch, and shading of your roof. The ideal roof for a residential solar system has 500 sq ft (46 m<sup>2</sup>) of unobstructed, south-facing, unshaded space, sloped at a 30-degree pitch. Your roof likely doesn't meet this ideal, but that doesn't mean it's unsuitable for solar. East- or west-facing roof areas are okay, so long as they're not shaded by ...

The efficiency of the solar panel installation is directly linked to the hours of direct sunlight available. Though solar panels generate electricity even on indirect sunlight, it would be below its maximum capacity. The rule of thumb is simple ...
