

# French battery company directory picture

The France for Battery directory introduces you to French players in the battery field. Find expertise and innovation from over 100 French companies. Consult their solutions & ...

Product Name Product Description Current Volume 2025 Volume 2030 Volume Picture; Battery Foil: 10-20µm aluminum foil for cathode current collector: 0: 300t

European demand for batteries is growing fast and is set to increase 14-fold by 2030, mainly driven by the electrification of transport. Given the strategic nature of the battery industry and its economic significance, the emergence of a French ...

World Leader in Direct Recycling of Catalysts (mineral products containing strategic metals such as Ni and Co) through chemical and physical technologies, EURECAT intends to exploit all analogies/adjacencies with batteries and develop a full industrial Closed Loop Battery Recycling Plant in Europe (from battery to battery cathodes and anodes).

ISP GROUP is a French company of 100 employees, created in 1997. The group is composed by two subsidiaries, ISP SYSTEM based in Occitanie near Toulouse and ISP AQUITAINE based in Nouvelle Aquitaine, near Bordeaux. ISP GROUP is a comprehensive program in precision engineering and is specialized in design and manufacturing of high precision mechanic and ...

If you are looking for a lithium battery company in France, you may be wondering which one is the best. The answer may surprise you. In this article, we will take a look at ElecSys France, ...

Business type: manufacturer. Product types: lithium ion batteries, nickel metal hydride batteries, lithium batteries, rechargeable batteries, military batteries, electric vehicle batteries, lithium ...

We have at our disposal a battery cell testing lab for characterization and qualification. We build validation prototypes for our customers, support the certification process of our customers and supply them with battery systems assembled in our French manufacturing facility located on Poitiers - Futuroscope industrial park. We deliver our ...

Development and production of lithium-ion battery packs from 48V up to 800V with immersion cooling technology. HOME; COMPANY DIRECTORY. Raw Materials; Conversion; Components; Cells and modules; Packs; 2nd Life; End of Life; Machines, Processes & Digital Solutions ; Support and services providers; MAP; FRENCH BATTERY STRATEGY; NEWS; WHO ARE ...

Moba offers the first battery certificate for used EVs. Already adopted by some 100 customers in Europe, including Toyota, Arval (BNP Paribas) or Aramisauto, Moba Certify Pro is the most effective industrial tool for battery diagnostics. Moba Certify Pro is also the first solution to be certified "Battery Health Check CARA

Approved" at European level. CARA-Europe is the ...

Forsee Power is a French industrial group specializing in smart battery systems for sustainable electric transport (light vehicles, off-highway vehicles, buses, trucks and trains). HOME COMPANY DIRECTORY

Neogy®; has more than 20 years of experience in the design and production of high performance intelligent batteries from 100 Wh to several MWh.. The company has a wide range of applications, both stationary and on-board: industrial, medical, automotive, defence, aeronautics, space, etc.. Neogy®; is part of the French technology group Startec Energy®, which is ...

I certify that the information entered is correct and I agree with the data protection charter of Business France. Personal information is collected and processed by Business France. It is a requirement so that you may access the France For Batteries platform and receive information relating to its operation.

Founded in July 2020, Verkor is a French industrial company based in Grenoble, supported by key industrial and financial partners. The company is accelerating the production of low-carbon batteries in France and Europe to meet the ...

Product Name Product Description Current Volume 2025 Volume 2030 Volume Picture; Battery management platform: Online platform that collects operational data supplied by the customer (states of charge, voltages...), transforms it using algorithms into accessible physical quantities (such as predictions of duration or general state of health) and, above all, provides access to ...

ElecSys France provides different size and re-configurable Lithium-Ion battery packs for different types of Electric Vehicles (EV), including hybrid electric vehicles (HEV), plug-in hybrid electric vehicles (PHEV), and pure battery ...

Betobo is projecting to recycle at least 1 200 tons of battery per year, and account on both SCRELEC and COREPILE 2026 request for proposal (call for tenders) to collect these volumes. In addition, BETOBO is involved in both its local and social environments: the company employs especially employees encountering difficulties to find jobs.

Incorporation Date: The date the company was legally established. Management and Ownership: Information about the company's directors, shareholders, and other key personnel. Financial Statements: Annual accounts and financial performance data, if applicable. French-Companies French-Companies is a private directory of French businesses ...

The company built this one-story plant in 1916 and added two floors in the same style in 1920. In 1917 Professor Burgess started his own competing battery company, which has evolved into today's Research Products Corporation. In the mid 1930's the French Battery Co. changed its name to "Ray-O-Vac," after the trade name of its batteries. The ...
