For Liquid-cooled FrontMount and MidMount models manufactured 1985-; Air-Cooled FrontMount models 725G2 (1988-2005), 727EFI (2014-). 729BT6 (2008-), 735BT6 (2008-), Side-post battery ships dry.

1.grasshopper----,,(,), ?

Initially the kit came standard with a mechanical speed control fitted with a plug that would only connect to the smaller 6volt (5 cell) battery packs. As the 1980s progressed, 7.2 volt (6 cell) batteries became the common type, and I believe later Grasshopper kits began to include mechanical speed controls to suit these batteries.

About this item. ?High Quality?- GARTPOT 4000mAh 2S lipo battery has the same power as the Nimh battery, and is lighter than the Nimh battery. It also has larger capacity and strong ...

I just got a Tamiya Grasshopper and Hornet and had ordered 2 Roaring Top 5200mah 2S Lipos for them. The amazon description said they fit Tamiya 1/10th scale cars but they don't fit the ...

Q: A new battery pack (or 2) and a charger - NIMH should do it. A: This will work perfect unless you wanted to spring for LIPO packs and a LIPO charger. They make LIPO packs that conform to the same dimensions as NIMH. LIPO's are much lighter than NIMH, so the GH2 might handle different without adding additional weight..
