Precursor plant location. Stakeholders suggest that this remains a point of disagreement between the DRC and Zambia. The governments initially agreed to construct the precursor plant in a cross-border special economic zone, but it seems that this shared site may be ultimately deemed unviable. The plant will therefore likely sit in one country or the other, and ...

Capital is being funnelled towards identifying new battery metals projects. But until the gulf between supply and demand from the green energy sector shrinks, prices will continue to soar. Cobalt's price has increased by approximately 120 percent since January 2019.
