

Intake battery valve price

This 60K piston intake valve with relief valve features an aluminum body with stainless-steel piston to effectively and reliably control pump intake flow. The built-in elbow reduces kinking of LDH, and the optional full-time swivel storz automatically relieves twists in the hose line.

I thought it was bad solenoid (bank 1) because of the code P0026 that lists the intake valve solenoid bank 1. However, I got it replaced a few ago on top of replacing oil pressure switch a few years ago but it does not help getting acceleration power back. still losing about 60 miles per gas tank.
