

# Kampala Energy Storage Fire Fighting Manufacturer

The use of lithium-ion (LIB) battery-based energy storage systems (ESS) has grown significantly over the past few years. In the United States alone the deployments have gone from 1 MW to almost 700 MW in the last decade [1]. These systems range from smaller units located in commercial occupancies, such as office buildings or manufacturing facilities, to ...

With steadfast economic development, the Greater Kampala Metropolitan Area (GKMA) faces increasing pressures to raise low-carbon electricity in the energy consumption by fuel type, abate CO<sub>2</sub> emissions, and also restructure transportation for sustainability. GKMA is Uganda's capital with rampant anthropogenic interference that causes climate change.

We have years of experience in fire protecting battery energy storage systems. Marioff HI-FOG &#174; water mist fire suppression system has been proven in full-scale fire tests with various battery manufacturers and research programs. The HI-FOG system ensures the fire safety of lithium-ion battery energy storage systems.
