Elevate your outdoor lighting with our versatile and stylish Contemporary LED Street Light Spider Mount series, now featuring an optional emergency battery ...

It& #39;d be very simple actually. Swap out the low wattage components used in this example with some higher wattage ones, replace the battery with a 120/6 volt transformer + a rectifier and filter capacitor & put the coil for a contactor that would switch the mains power for the street light on and off in series with the transistor.
