While this is the general rule there would be certain exceptions. When running in series one can for example use a 2 cell and a 3 cell to essentially have a 5 cell lithium battery. I.e. A 2s 50c 5000mAh battery in series with a 3s 50c 5000mAh battery will be the same as if purchasing one single 5s 50c 5000mAh lithium battery.
