quality solar panels and solar energy products with installations for residential, commercial and industrial premises at competitive prices.

Lusaka. A GROUP of civil society organisations (CSO"s) from Zambia and the Democratic Republic of Congo (DRC) have implored governments of the two countries to ...

On September 7, Chinese battery material producer Lopal Technology announced that it will be developing a project for manufacturing lithium carbonate with two wholly-owned subsidiaries of CATL. The production capacity of the project is set at 300,000 tons per year. The total investment in the project is projected to be no more than RMB 1.5 billion. ...

The state-of-charge (SOC) and state-of-health (SOH) of lithium-ion batteries affect their operating performance and safety. The coupled SOC and SOH are difficult to estimate adaptively in multi-temperatures and aging. This paper proposes a novel transformer-embedded lithium-ion battery model for joint estimation of state-of-charge and state-of-health. The ...

Lusaka, 29th April 2022 - Zambia and the Democratic Republic of Congo (DRC) has signed a historical cooperation agreement to facilitate the development of value chain in electric battery ...

En s&#233;jour de travail &#224; Lusaka, capitale de la Zambie, le Chef de l'&#201;tat, F&#233;lix-Antoine Tshisekedi Tshilombo et son homologue Zambien Hakainde Hichilema ont sign&#233; un ...

Galp and Northvolt set up joint venture "Aurora" to develop opportunities related to the fast-growing battery value chain With a 50/50 stake, the joint venture is engaged in the development of Europe"s largest and most ...

The joint venture project reportedly includes the establishment of two key facilities - a lithium battery cell production line and a battery pack production line. The JV is also said to involve establishing R& D centers for new technology development in the areas of solid-state batteries, high-power batteries, marine and aerospace batteries.

The project will create business opportunities for people in Chibombo and Katuba, facilitating better market access for traders along the road to Lusaka and beyond. Minister Mutati credited President Hakainde Hichilema"s leadership for realizing this landmark PPP project. He underscored its potential to enhance Zambia"s status as a land ...

Lithium, renowned for its lightweight and high reactivity, presents significant potential for energy storage, particularly in batteries used for electric vehicles and various industries. Rao revealed Zambia"s request for India"s collaboration on a joint exploration project during an offshore mining workshop organized by the ministry.
