Perfect Tool for The Job: Golf cart battery strap is perfect tool for pulling heavy golf cart batteries (that do not come with a lifting strap) out of the battery tray. This product definitely made the process of carrying, hauling, removing and installing batteries much easier. Helps when moving the batteries around in the golf cart.

After working them down beside the battery I could lift each end of the batter just enough to twist the steel strips and make the bent end go under the battery. Then I just lifted the two strips and they pulled the battery up. This is much easier on the hands of you tape or pad the top part of your lifting strips. Ron _____
