How Do You Power Outdoor String Lights? You can power outdoor string lights conventionally by plugging them directly into your home or via an extension cord. If that isn't an option, try more unconventional methods. Consider solar power, battery power, rechargeable lights, USB Christmas lights, or a light socket adapter.

These two EcoFlow Delta Pros will power my off-grid garage. These portable power stations are about as plug-and-play as it gets. With a capacity of 3.6 kWh, they use lithium iron phosphate batteries designed for 3500 cycles while maintaining 80% capacity. Together, they provide 7.2 kWh of reliable power.

These solar-powered portable power stations keep your batteries full during power outages and off-grid campouts.
