Li-ion batteries contain a protection circuit that shields the battery against abuse. This important safeguard also turns the battery off and makes it unusable if over-discharged. Slipping into sleep mode can happen when storing a Li-ion pack in a discharged state for any length of time as self-discharge would gradually deplete the remaining charge.

Rechargeable Lithium-ion Battery Pack for the Grace Digital Mondo. Works With: Grace Digital Mondo Internet Radio; Grace Digital Mondo+ Internet Radio

With the first commercial lithium-ion battery entering the market in 1991, the (nearly) 30 years since have

seen rapid development. ... 18650 lithium-ion cells as found in a laptop battery. Packs ...

One Lithium-ion battery pack I've been using with my Mountain Topper MTR-3B, Elecraft KX2 and KX3 transceivers is a (very affordable) TalentCell rechargeable 3000 mAh Li-ion battery pack that provides both 12V and 5V USB power. It has built-in charging circuitry and is very compact.

In 2011, I evaluated a lithium-ion battery pack with integrated 5V USB chargers and even a simple one-outlet inverter from one of the big names in portable power systems. At the time, this was a new battery pack and a relatively new technology, at least in terms of the energy density and compact size.

A lead acid battery can hold about 30-50 watt hours per kilogram of weight, while a lithium iron phosphate battery is on the line of 90-120 watt hours per kilogram. Related to this energy density, a lead ...

The ACR 1061 SR203 GMDSS VHF Radio Replacement Lithium Battery from Nomadic Supply Company<sup>®</sup> is NON-RECHARGEABLE. If you need a rechargeable battery, you'll want the ACR 1062. ACR 1061 SR203 VHF Radio GMDSS Replacement Battery Features: Lithium battery pack for ACR SR203 GMDSS Survival Radio; Provides GMDSS ...

Upgrade your L6, PJ2 or PJ2+ COM Radio with a rechargeable battery pack. This lithium-polymer battery provides plenty of juice to listen and transmit with your radio. Battery pack is the same size as the alkaline version. When fully charged the Li-Polymer battery provides approximately 8-12 hours of consistent use. Specs: 2700 mAh @ 7.4V DC
