

# Ranking of benchmark companies in the lithium battery industry

**Lithium Market Size & Trends** . The global lithium market size was estimated at USD 31.75 billion in 2023 and is expected to grow at a CAGR of 17.7% from 2024 to 2030. Vehicle electrification is projected to attract a significant volume of lithium-ion batteries, which is anticipated to drive market growth over the forecast period. The automotive application segment is expected to ...

**Industry. Buildings. Energy Efficiency and Demand. Carbon Capture, Utilisation and Storage. Decarbonisation Enablers. Buildings; ...** Automotive lithium-ion (Li-ion) battery demand increased by about 65% to 550 GWh in 2022, from about ...

The largest lithium-ion battery companies worldwide were located in the Asian continent. China, South Korea, and Japan led the ranking in 2023.

The global lithium-ion battery industry has experienced remarkable growth, ... benchmarking targets, and areas for improvement in the manufacturing processes of lithium-ion batteries. ... they surpassed seven companies and climbed fifth in the rankings (1.3073). However, they had the fourth lowest catch-up rate in 2020-2021 (0.8989). The last ...

The global Lithium-ion Battery Market Size in terms of revenue was estimated to be worth \$56.8 billion in 2023 and is poised to reach \$187.1 billion by 2032, growing at a CAGR of 14.2% during the forecast period.

The comprehensive strength analysis report of the ranking of China's lithium battery companies will analyze and evaluate the comprehensive strength of the major companies in the ranking of domestic lithium battery manufacturers, find typical companies, set industry benchmarks, and promote the healthy development of the industry. The following ...

Market cap: US\$6.72 billion Share price: 25.82 Chinese yuan. Tianqi Lithium, a subsidiary of Chengdu Tianqi Industry Group, is the world's largest hard-rock lithium producer. The company has ...

With more than 100 years of history, Japan's Panasonic is the world's third-largest supplier of EV batteries. 7 The company is considered a Tier 1 lithium-ion battery producer according to Benchmark Mineral's classification standards. 8 The designation means that the company produces the highest-quality lithium-ion batteries, for ...

**Drivers for Lithium-Ion battery and materials demand:** Electric vehicles as main driver for LiB demand 32.7%. 7 The dependency of the industry on LiB cells and critical battery materials creates significant supply chain risks along the full value chain Overview LiB Cell Supply Chain (CAM/AAM only, example NCM chemistry) ...

# Ranking of benchmark companies in the lithium battery industry

Despite declining prices, battery demand is projected to increase ninefold by 2040, with the battery industry's total capital ... to rank the top lithium-ion battery producing countries by their forecasted capacity (measured in gigawatt-hours or GWh) in 2030. China to Keep Dominance. Chinese companies are expected to account for nearly 70% of ...

In 2017 Benchmark created its market specific Lithium ion Battery Cell Data Methodology which includes the company's tier ranking of lithium ion battery producers. The data and analysis is presented monthly and quarterly in two ...

Against this backdrop, the passage of the IRA has reshuffled the economics and geopolitics of the LiB value chain. This commentary, the first in a two-part series, addresses the economics of the battery supply chain, who controls its key components, and, most importantly, how the IRA changes the position of the US in the global battery market.

The lithium battery industry is currently in a period of rapid growth. Driven by the development of new energy vehicles and photovoltaic energy storage markets, the power storage lithium battery ...

This report lists the top Lithium-ion Battery companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Lithium-ion ...

What was the net market size of Lithium Hydroxide in terms of volume in 2022? Ans: The global market size of Lithium Hydroxide has reached approximately 180 thousand tonnes in 2022. Q2. Which industry is the leading consumer of Lithium Hydroxide? Ans: Batteries industry is the leading consumer of Lithium Hydroxide globally. Q3.

Lithium has become essential in recent years, primarily due to the boom in electric vehicles and other clean technologies that rely on lithium batteries. The global lithium-ion battery market was valued at \$52 billion in ...

This report lists the top Lithium-ion Battery companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Lithium-ion Battery industry.

The growth rate was 59.7 percent, ranking second among Korean companies. According to industry insiders, Samsung SDI still maintains its ranking, but considering the slow expansion of production capacity, such as overseas plant investment plans, there are concerns that it will be caught up with other battery companies, such as CALB and Guoxuan ...

Consequently, the lithium-ion battery market size is expected to significantly grow as well. While valued at

# Ranking of benchmark companies in the lithium battery industry

about 54.6 billion U.S. dollars in 2021, the market should reach the size of around 257 ...

UPDATE 21 Feb. 2024: The global EV battery market is a much bigger pie than it was just two or three years ago. In 2021, according to Statista, battery makers took in US \$26 billion 2023 ...

The India Battery Market is expected to reach USD 7.20 billion in 2024 and grow at a CAGR of 16.80% to reach USD 15.65 billion by 2029. Exide Industries Ltd, Luminous Power Technologies Pvt. Ltd., HBL Power Systems Ltd, TATA AutoComp GY Batteries Pvt. Ltd. and Okaya Power Pvt. Ltd. are the major companies operating in this market.

Combined revenues and net profits at 107 mainland-listed companies in the lithium battery supply chain came in at Rmb293bn (\$40bn) and Rmb17bn for the first quarter, down 18 per cent and 50 per ...

According to the latest figures from South Korean market Research firm SNE Research, With 34 GWH installed capacity, CATL is the world's largest power battery company with a 24.82% market share. Here's a look at the top 10 lithium ion battery companies in the world: 1. CATL. Global status: The world's largest lithium ion battery company ...

lithium-based, battery manufacturing industry. Establishing a domestic supply chain for lithium-based batteries . requires a national commitment to both solving breakthrough . scientific challenges for new materials and developing a manufacturing base that meets the demands of ...

With more than 100 years of history, Japan's Panasonic is the world's third-largest supplier of EV batteries. 7 The company is considered a Tier 1 lithium-ion battery producer according to ...

To rank these seven companies based upon their 2021 market share, we used 2021 market share data published in June 2021 from SNE research. These are the companies that are driving the lithium-ion battery ...

LG Energy Solution, Ltd is a battery company headquartered in Seoul, South Korea, and it is the only one of the world's top four battery companies with a background in chemical materials.LG Chem produced Korea's first lithium-ion battery in 1999 and succeeded in supplying automotive batteries for General Motors Volt in the late 2000s.

Chinese Aviation Lithium Battery Co., Ltd. (CALB), a state-owned enterprise, specialises in the design and manufacture of lithium-ion batteries and power systems for a range of applications, including those for electric vehicles, ...

A report on the demand and supply of lithium-ion batteries for light electric vehicles in 2023, based on provisional data. CATL, BYD, and LG are the top three battery ...

# Ranking of benchmark companies in the lithium battery industry

Chinese companies are expected to hold nearly 70% of global battery capacity by decade's end. This graphic uses exclusive data from our partner, Benchmark Mineral Intelligence, to rank the top lithium-ion battery producers by their forecasted gigawatt-hour (GWh) capacity for 2030. ... AI's Effect on Industry Margins Over the Next Five Years. ...

Swedish startup Northvolt and China's Sunwoda have reached Benchmark's Tier One electric vehicle battery cell manufacturer status, as assessed by Benchmark in its Lithium ion Battery Gigafactory Assessment, as they expand capacity to ...

The global lithium-ion battery market was valued at \$52 billion in 2022 and is expected to reach \$194 billion in 2030. The infographic above uses data from the United States Geological Survey to explore the world's largest ...
