

Smart Tantalum Capacitors

Abstract: This paper describes the manufacturing of thin-film tantalum pentoxide (Ta_2O_5) capacitors in the value range of 10-1000 pF on 200 mm silicon wafers using standard wafer ...

Tantalum capacitors are often used as the capacitor connected to the power line of PA(=Power Amplifier) for GSM on smart phones. In this report, we evaluate replacing the tantalum capacitor (Ta-Cap) with a ceramic capacitor.

My opinion on it is there is still a strong stigma from the 1980's - 1990's where endless bits of test gear succumbed to a tantalum shorting out a supply rail or worse, with the last bit of test gear i repaired having over 30 shorted tantalum's, where they used them for decoupling where some values where low enough that ceramic could have been used.

Solid tantalum capacitors offer infinitely useful lifetimes and unparalleled volumetric efficiency, making them a smart choice for high-reliability applications including military, aerospace, and ...
