Solar Equipment Spare Parts

Toggle Navigation. Home; About Us; Our Products. Solar Products. Solar Kits; Solar Panels The RenewSys Solar Modules are manufactured on state-of-the-art equipment, and use certified components from world class suppliers. The ...

Spare Parts are all the items (materials and equipment such as modules or inverters) listed on the Spare Parts List, not in use or incorporated in the solar PV power plant, intended to replace similar items in the solar PV power plant. Spare Parts Management is an inherent and substantial part of O& M that should ensure that spare parts are ...

To comply with this requirement, the Company must maintain a certain level of materials and supplies (the "spare parts") at all times. On a regular basis, SBS reviews a listing provided by Big Desert of recommended spare parts for various components of the solar power plant and procures the necessary parts.

1. Under US GAAP, spare parts expected to be used within one year can be classified in two ways: As Inventory - According to ASC 330-10, items that are held for sale in the ordinary course of business or used in the production of goods to be sold are considered inventory. If SBS expects to use these spare parts within a year in the regular maintenance and repair of the solar plant, ...
