Solar PPA Solutions for Warehouse Buildings . As warehouses typically have ample roof space, these buildings are great candidates for solar energy, standing to benefit significantly from substantial reductions in energy expenses ...

Constraints. Roof type and Rooftop space - While warehouses usually have large roof spaces, the nature of the roof may make them unsuitable for solar installations e.g., some warehouse roofs have portions with transparent roofing to enable natural lighting. Solar panels cannot be installed on the transparent portion of the roof as the panels will block the light.

Solar Warehouse Roof

Warehouse solar panels can turn your unused roof space into free electricity for your business, allowing you to save thousands on your energy bills and reduce your carbon footprint. Join other warehouse businesses who are already saving thousands on their energy bills!
