

Solar charging cable 25 square meters

PV cables for DC cabling. Temperature-resistant and UV-resistant: satisfy all solar industry requirements with photovoltaic cables from the SUNCLIX series. Cable photovoltaic panels easily and reliably. The range includes DC cables sold by the meter as well as tools and accessories for safe wiring of your photovoltaic system.

The almost 5 m (16 ft) extension cable can be used in conjunction with the original 3 meter solar panel cable to achieve a total length of around 8 meters when the portable power station is connected to the solar panel. The flexibility gained in this way makes the accessory a must-have when it comes to the necessary power from afar.
