

Argo"s Steering Wheel. As a part of Illini Solar Car, I worked on a lot of different systems on the car, but one system would become a consistent focus - the steering wheel. My first big firmware project on the team was fixing the firmware controlling the original steering wheel for Argo. At the 2017 World Solar Challenge, the car had been plagued by issues due to this ...

A car running completely on solar energy is still a pipeline dream, but rooftop panels are now being featured on cars like Hyundai's Sonata and Mercedes's Vision EQXX. ...

HvG Displays für Solartechnik LED Anzeigetafeln für Anwendungen im Bereich Solartechnik. Solar-Anzeigetafeln und Solar-Displays für viele Anwendungen in der Photovoltaik. HvG Displays for PV-Systems LED displays in different sizes ...

The Solar Car Challenge was established in 1993 to help motivate students in science and engineering, and to increase alternative energy awareness. The Challenge teaches high school students around the world how to build roadworthy solar cars. The Solar Education Program provides a safe environment for teams to display their solar cars.

Ford"s new concept for solar-powered hybrid car can run for 21 electric-only miles on a day"s worth of sunlight. That possibility comes courtesy of sun-tracking software that works in combination ...

Sono Motors is a leading provider for solar integration products for the commercial vehicle and automotive industry. Having been pioneering in developing vehicle integrated solar technology for more than 7 years with the ...

Solarfox Solar Displays für Solplanet Monitoring zur Visualisierung von Solarstrom. Ansicht von Stromertrag und CO2-Vermeidung. Solarfox Displays visualise solar energy to the public.
