The executive said it had no plans to renew the long-standing measures, which expire at midnight on Monday. The decision was welcomed by some but condemned by others, including EU ProSun, the grouping of EU producers that launched the initial complaint about solar panels from China back in 2012 and wanted a further extension of measures.

EU governments, acting on a commission proposal, have until Dec. 6 to decide whether to accept the agreement as a "definitive" measure. While definitive EU anti-dumping measures usually last five years, De Gucht said the pace of change in the solar-panel market justifies the shorter period of protection that he negotiated. Five Years

US, Europe target forced labor with the import ban. In addition to the specific tariffs on solar panels and cells from China, on 23 December, President Biden signed the Uyghur Forced Labor Prevention Act. The law bans imports into the US of goods made by forced labor in the Xinjiang region in China, effective from 21 June 2022.
