It should be installed in series with the power supply and as close to the protected equipment as possible to ensure the best possible protection.

## Solar power supply pole 4 meters price

Rugged outdoor 300W 24V pole-mounted 2-battery enclosure solar system. Contractor and Government discounts. Over 20 years experience. Call for advice.

Net metering is an arrangement between solar energy system owners and utilities in which the system owners are compensated for any solar power generation that is exported to the electricity grid. The name derives from the 1990s, when the electric meter simply ran backwards when power was being exported, but it is rarely that simple today.
