

# The tablet power battery cable is connected incorrectly

A battery consists of a negative and positive terminal; charging the battery backward is not possible. The cables connecting the battery to the charging source must match to charge the battery. The charging cables connect to another battery or a wall outlet with an intermediary charging device that manages voltage and prevents overcharging.

The battery was most likely sitting at 8-9V before jumping it wrong, however even though the other battery could also be sitting at around 11-12V max as I also tested that yesterday. I tested my own battery yesterday, it was sitting at 5.3V when I tried to jump start it it wouldn't go up more than 10.5V this may be that the second battery was ...

Device Care on Samsung Galaxy Tablet. You can do this by going to Settings, followed by Battery and device care. At the top, you can see whether the battery's health is good. You'll also see an optimize button, and when you tap on it, the scan will show you if any high-battery usage apps are running, any app crashes have been reported, ...

What are the white, red and black cable on tablet pc battery, If battery is dead and we want to power the device directly from the charger, can we just connect the cable to motherboard/logic board on tablet, to power on the device. or do we need some resistor/capacitor/circuit etc in between.

Steps to Factory Reset most (if not all) Samsung tablet: Turn the tablet off by holding power button and volume down button down until the tablet turns off. After that Boot your device into Recovery Mode. You can do this by holding the Volume Up + Home + Power keys. When the Samsung Logo pops up, stop holding the power button but keep ...

So now I have since removed all cable and connected it correctly with the red first on the positive and the black second on the negative. ... connecting a battery wrong can do a few things, but wont be tracable unless you have a pro do it. ... Sprint Booster V3 - VLAND LED headlights - Everstart Platinum AGM - Arrow Mark 1 cap with ...
