

Ultra-small solar panel repair

As a result, the panel dropped onto the T-post, so an emergency repair - in the form of a small C-clamp - was employed to spread the weight of the panel a bit. You can see, looking at the hinge on the left (this rebar rail allows panels to have a low winter angle and be propped up into a summer angle) the drop was significant.

How often should I get my solar panels cleaned? At SolarReviews, we recommend getting your solar panels cleaned at least once every two years. Solar panel cleaning should cost around \$15 per panel or \$300 for a 20-panel system. The energy payback on this spend should be well and truly worth it as output can decay 10-20% if your panels are dirty.
