It's less expensive than big brands like Goal Zero or Jackery. Most of these you can charge at home in the wall then use them at camp. But without solar you'll not be able to fill them at camp unless you have an outlet. But if you had an outlet at camp you probably wouldn't need a power station. Unfortunately, power stations are expensive.

We rate and review solar powered generators for home backup during power outages. These battery alternatives to gas are from brands like Generac and Jackery.

The capacity of a portable power station is measured in watt-hours (Wh) and indicates how much energy the device can store. This capacity determines how long the power station can provide electricity to your devices before needing to be recharged. While small portable power stations start at around 250 Wh, larger ones reach about 2,000 Wh or more.

It also uses the same power inputs as other EcoFlow power stations, so you can charge it via AC power, plug it into your car, or plug in a solar panel. Dimensions : 9.8 x 5.5 x 5.2 inches?
