Your Ring App Shows Solar Panel "Not Connected"

Such a stupidly simple hack. I just wired my solar panel up to power lines on the doorbell. It doesn't matter what the polarity is; it just works. The solar panels put out about 18V, and the doorbell circuit usually put out around 20V. Its been a few days and the doorbell is running on the battery overnight and charging back to 100% every day.

This article will help you keep your Ring Pathlights working their best. If you want general information on Ring Smart Lighting, click here. During Setup my Smart Light was not found by my Ring App. What's going on? If a light can't be found by the Ring App during setup, check the following for potential causes:

the &quot;problem&quot; with the work around is that the &quot;solar value&quot; estimates will now be off - since it will accrue &quot;off-peak&quot; per-kWh &quot;value&quot; for the solar power rather than the &quot;mid-peak&quot; value for the solar power...grrr

All Ring solar panels require as much direct sunlight as possible. Filtered or indirect sunlight through the clouds will not provide the same charge to your Ring devices. If the weather is cloudy or you get a lot of snow, this would limit the hours of direct sunlight your device is receiving, which could lessen the charge significantly.

Oh, I'm sure other brands have solar charges that actually charge the device, unfortunately ring devices don't :( 2.2 watts is all you get and you can go look at the specs online, I have lots of other solar devices that charge during the day and light up every night, never need to be charged and all are lithium based, generally 18650s.

A solar charge controller (or sometimes called a solar regulator) plays a crucial role in solar power systems. It sits between the solar panels and the battery bank, controlling the flow of electricity to prevent the batteries from overcharging and extend their lifespan.

It doesn't recognize the solar panel you just installed. (Make sure that the solar panel is installed correctly.) You're getting a message that says "add a solar panel." (This doesn't mean that the device is failing to charge; it is merely an advertisement to ...
